

Please do not allow the LPFM station to override our current K-LOVE station. K-LOVE serves our community by adding clean, non-commercial wholesome, music and commentary. It is a great alternative for my children to not have to listen to secular music. We would be greatly adversely affected if it should not be on the air. The service they provide is a calming, serene, God fearing affect on our community. Who couldn't use a little love today, especially with all the anger and rage in the world. As the Bible says "Love never fails"
